

## **Sisters of Providence**

### ***Associate Directional Statement 2018***

We, Sisters of Providence Associates, trusting in God's Providence, will use whatever gifts our Provident God has entrusted to us as seeds of hope for the future. On our journey, we will honor the charism, history, and mission of the Sisters of Providence as we make our decisions attentive to the needs of the times, and in light of their impact on women, earth, and those who are poor.

Conscious of how our Provident God invites us to be co-creators of an unfolding universe, we commit through prayer and discernment to recognize our individual and communal gifts.

We strive to assume responsibility for our own governance, providing ongoing education for new roles and responsibilities.

We share our common call to be a compassionate presence communicating hope to all those in need.
